

LO-V716, LO-V717, LO-V718
Combination Volleyball Poles for both
1-7/8" Dia. (48mm) and 2-3/8" Dia. (60mm) sockets

Applications:

Top quality Steel Volleyball Combination Poles, set heights for Men's and women's Sr. Volleyball. Preset heights for badminton and pickleball.

Material:

Post manufactured from 2-1/4" dia. (57 mm) O.D. steel tubing.
Welded net hooks and pulley brackets.

Specifications:

Designed for everyday class use, netting ties to poles with hooks, netting rope passes thru pulleys to be tightened with winch (sold separately) This system will tighten top of net only. Bottom of net gets tied to posts. Socket adapter (supplied) attaches to each post allowing use in both size sockets. Adapters attach to posts with set screws.

Finish:

All welding is ground for a smooth finish; Poles have a baked on Powder coated Red finish.

Available Options:

Post Padding.
Post storage rack for storage room.

Subject to design change and current manufacturing practices.
