

LO-B1101 Tri-Basketball System

Applications: For Outdoor use where space is limited, single post design allows for 3 backboards to be mounted on 1 post.

Material: Post manufactured from 152mm [6"] O.D. steel tubing with 3mm [1/8"] thick.
Arms manufactured from 102mm [4"] x 102mm [4"] x 3mm [1/8"] Square Tubing.

Specifications: Adapter "H" Frame allows any backboard with 35" Horizontal x 20" Vertical mounting bolt pattern to be installed.

Arms extends backboard 2.43m [96"] away from center pole in all three directions, designed to hold backboards and rims at an official 3.048 m [10' high]

Ideal area for installation is 152m [50'] x 152m [50'] flat surface area.

All welding certified in accordance to CSA Standard W47.1 Division #3

Finish: All welding is ground for a smooth finish; all steel shall have a hot dipped galvanized finish. Galvanizing to be applied after parts are fabricated whereas to eliminate any and all rusting.

Option: A Powder Coated top coat can be applied on-top of the galvanized for esthetic purposes.

Subject to design change and current manufacturing practices.
