

LO-B63 Front Mounted Double Rim.

Applications: Used on backboards with front mount specs. LO-B76A, LO-B76AB, LO-B72, LO-B72-42, LO-B75S, LO-B75SB, LO-B75W, LO-B75WB

Specifications: The LO-B63 goal shall be constructed from heavy duty mounting plates with additional side braces to strengthen rim. Goal shall be designed so that any possible entrapment areas have been eliminated.

Goal shall have TWO official size 18" ring of 5/8" diameter steel welded on top of each other with no-tie net attachment, Hole spacing shall be 5" x 4-1/2 to 5".

Accessories: Anti-whip nylon net/mesh and hardware shall be included with each rim.

Finish: Goal shall have a durable Orange Powder Coated finish. The application of powder coating involves no emissions into the air or water as they consist of dry matter only – unlike liquid paint applications which require an evaporating VOC and cleaning solvents. In addition, powder coating finishes are more durable and last much longer than liquid paint, are corrosion and chemical resistant, and only require one application, compared to liquid, to yield a thick, strong coat.

Subject to design change and current manufacturing practices.
